WORK EXPERIENCE

Full Stack Developer

eSkilled Inc. **April 2025 – Present**

- Developed and deployed multiple core features for the Student Management System (SMS) project, significantly improving user onboarding, system exploration, and overall user engagement.
- Built full-stack features for student management, financial modules, and compliance tracking tailored for educational institutions.
- Integrated GitHub Copilot and Reasonix into daily development workflows, maximizing coding efficiency, optimizing speed, and accelerating feature release timelines.

Full Stack Developer | Software Developer Team Lead

Premier Software Enterprise Inc. **November 2020 – April 2025**

- Awarded Employee of the Month 6 times in recognition of consistent technical delivery, project leadership, and development excellence.
- Served as Lead Developer across all enterprise projects, taking full ownership of technical architecture, system design, and final code delivery.
- Managed and mentored a team of junior developers, providing direct technical guidance and establishing structured code reviews to elevate overall code quality.
- Managed the simultaneous development and on-time delivery of 4+ major enterprise applications while meeting strict performance standards.

KEY ENTERPRISE PROJECTS

Student Management System - A comprehensive system designed to help educational institutions manage student enrolments, courses, assessments, financials, and compliance processes.
PSEConnect - An Enterprise trading platform enabling brokers to participate in Philippine Stock Exchange transactions and market activities.
PDS Market Page - An Enterprise monitoring platform providing visibility into fixed-income market infrastructure and trading activities.
PSE Billing Portal - An Enterprise billing and invoice management platform supporting internal financial operations of the Philippine Stock Exchange.
STG (Stock Trading Game) - Stock market simulation platform designed to provide users with hands-on trading experience in a risk-free environment.
